SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	• It is very essential to put location map with proper field photos of sample plots. • How the table 2 is generated? Explain properly. • Need remote sensing images (LU-LC) to show the urbanization, agriculture, roads, logging etc. Temporal study is also essential to improve the work. • The work is not properly focusing on the sample plots, how are these plot used to show the anthropogenic impact is not clear. • Data related to urbanization is important. • Overall, the study should be more quantitative and analytical.	• Field photos of sample plots have been inserted in the work. • Table 2 is by generated questionnaire survey. • Remote sensing data is not available. • The sample plots were used to determine and identify the girth of trees in the reserve and the anthropogenic activities such as construction, land clearing for farming etc..
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
