

SDI Review Form 1.6

Journal Name:	Asian Journal of Environment & Ecology
Manuscript Number:	Ms_AJEE_36742
Title of the Manuscript:	Hydrocarbon spill site characterization by Electrical Resistivity Tomography and Ground Penetrating Radar methods - A review
Type of the Article	Minireview Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Some re-occurring mistakes were highlighted on yellow in addition to the revision comments. In line 116, the author observed one of the drawbacks of electrical resistivity tomography. He can as well make contribution to knowledge by suggesting other possible sources of observed low resistivity values when sampling mature spills.	All highlighted mistakes have been identified and revised, sources of observed low resistivity was suggested on conclusion of the research review.
<u>Optional/General</u> comments
