SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	I like the paper. Please check comments made in the pdf of the manuscript. Main comments: • Check the scale units of the map in Figure 1; • Data collection: the authors should expand more about how the plots were selected (at random, systematically every x m (km))? • Results and discussion: the authors refer to compartments (B, C, D, etc.) . They should give more information on these locations since we, as readers, have absolutely no indication where these compartments are. Maybe in showing them on the map in Figure 1? • Check out the may orthographic errors throughout the manuscript; • Check the references since format and citation in the text are missing for some.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
