SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	A section should be created before the results to explain the type and method of statistical packages used for the analysis of the results. The paragraphing should be re-visited in order to enhance consistency within the manuscript. The conclusion should be restructured to contains some significance of the study and thereby make a meaning recommendations.	
<u>Minor</u> REVISION comments	Line 214: not differ significantly between themselves at $p < 0.05$....author(s) should change between themselves to "from one another". The effects of high levels of metals concentrations in the samples should be highlighted to give more health impacts of heavy metals.	
<u>Optional/General</u> comments	The author(s) wrote the manuscript with high sense of quality.
