SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript has been written very clear and give me the possibility to figure the paper with high grade. Check the English, Why the authors do not give the type of GIS and of DEM with all characteristic. Nowadays, we can use many types of GIS open and commercial. I think That they should state it. I think that the GIS used maybe ARC-GIS. They have to be open on this issue. I would put more references because they have put a short list paper but the GIS world is very large.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
