SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	From the topic: is Bhutan a country where Manas Range (Royal Manas National Park, Bhutan) is located? If not the country should be indicated. Abstract see line 6-15 is exactly the same with a work i reviewed on research title: Least-biased estimations of true species richness of butterfly fauna in sub-urban sites around Jhansi (India) and the range of inter-annual variation of species richness (Abstract line 13-20) same apply to your introduction line 29 -36 then line 41-48. The question is, are you the author with the research title indicated above? if No, it's create worries on how one can write such a lengthy paragraphs that are the same. However, i did not dispute your write up. The methodology and approach explored is scientifically accepted. Don't use I, use investigator (see 62 of the introduction). The objective should be clearly stated.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The paper is okay and well presented.
