SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	I have annotated and tracked the changes that I suggested. This manuscript must be comprehensively revised, with a clear cut intent and simplicity that is required. From the abstract I have tried to track the changes and in most cases I have even suggested useful authors as this is also my line of work. However, I feel if adequately revised this manuscript can tell a very relevant story, pertinent to the cases in the Delta state, which is one of the most polluted in the whole world due to oil mining.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
