SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	English and grammar could do with small improvements.	
<u>Optional/General</u> comments	Unable to access references 19, 12, 11 and 8 online to find more information regarding principles of range scoring system. Not much in the discussion regarding importance of comparing between range sites using ANOVA other than just to say that they have similar plant composition? What were the features used to delineate the three range sites and the reserve divisions? A map would be beneficial here.
