PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	- There are multiple repetitions in data presentations. - Discussion part is not well explained that make the article lack its novelty, i.e. instead of discussing data the author has to discuss findings. (See comments in the article). - References are not well formatted.	
Minor REVISION comments	Please see them from the main text.	
Optional/General comments	This article has good findings but only the way of expressing them to the author need refining.
