Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Section 2 is not defined and explained clearly. There is no questionnaire used. Please provide it. Please explain in detail how you get the results. Section 3. It is better to provide the results using bar chart or pie chart. There are many other measures than personal protective equipment and education. There are engineering measures, technical/technological measures, organizational measures (some of measures are introduced here) etc. There is no description of the production plant or production process so there can not be concluded what measures are the best for tea factory. The focus is only on the employees' age but this could not be the only issue in defining measures.	
Minor REVISION comments		
Optional/General comments	In general, the paper could be done better technically
