<u>Compulsory</u> REVISION comments	Dear author(s), This is an interesting research article. However, several questions were raised and suggestions were provided in order to enhance the quality of the paper as follows: 1. Please re-edit the abstract and I found too many misleading sentences, make it simple and precise. 2. The background of the study is poor! 3. The problem statement should be strengthen by having more sources for support. 4. The methodology is okay! 5. The discussion is weak and less arguments were made. 6. Implications in terms of current body of knowledge? 7. Available Indigenous tourism framework or models could be useful as an underpinning theory. 8. A major English proofreading is needed to enhance the quality of the article. Best regards,	revised
