PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Title states " Mapped soil fertility status and variation " In abstract it states "This study aimed to map exchangeable bases' properties across closed forest (control), agriculture and livestock disturbed sites in the coastal zone of Tanzania to add knowledge on the management of tropical coastal forests" This objective is bit different for the goals and objectives mentioned in introduction. Further in results no map/graphical representation is given about soil fertility	Line 1: The title has been revised to read "Evaluation of soil fertility status based on CEC and variation across disturbed and intact tropical coastal forests sites in Tanzania"
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
