

**SDI Review Form 1.6**

|                          |                                                                                   |
|--------------------------|-----------------------------------------------------------------------------------|
| Journal Name:            | <a href="#">Asian Journal of Environment &amp; Ecology</a>                        |
| Manuscript Number:       | Ms_AJEE_41112                                                                     |
| Title of the Manuscript: | Regional climate models projections of wind speed in Morocco for period 2020-2050 |
| Type of the Article      | Original Research Article                                                         |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

**PART 1: Review Comments**

|                                     | Reviewer's comment                                                                                                                                                                                                                                                                                                                                                                                                                          | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)                                                                                                                                                                                                                                                                                                         |
|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments |                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Minor</b> REVISION comments      | <ol style="list-style-type: none"> <li>1. Cite the references in increasing numerical sequences as superscript (1,2,3 etc...) and list them accordingly under "references"</li> <li>2. Cite the listed references by number 1,2,3 instead of name and year in parentheses</li> <li>3. Make sure that all the references are cited in the text.</li> <li>4. Table must be cited</li> <li>5. Include more mathematical expressions</li> </ol> | <p>We thank the reviewer for his/her useful comments.</p> <ol style="list-style-type: none"> <li>1. Corrected</li> <li>2. Corrected</li> <li>3. Corrected</li> <li>4. Corrected</li> <li>5. Our study is related rather to the geography not the mathematics. Nevertheless, we understand an importance of the mathematical expressions in scientific papers. However, we think that formulae for annual mean values are trivial and not to be included in our manuscript.</li> </ol> |
| <b>Optional/General</b> comments    |                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
