

SDI Review Form 1.6

Journal Name:	Asian Journal of Environment & Ecology
Manuscript Number:	Ms_AJEE_43015
Title of the Manuscript:	Assessment of Water Quality of Most Polluted Area of Karnaphuli River, Bangladesh, Using Multivariate Analysis and Pollution Evaluation Indices.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	In Sample Collection and laboratory Analysis in the lines from 87 -89 it is written as - Five major sampling points (Three for each)were selected within 6 km of Karnaphuli River and samples were collected from river in the distance of about at least 20 meter from one sample to another for each sampling site. In fig.1, 15 sampling points are shown. But in the table.1 only five sampling ID is shown. It is bit confusing. Some clarity is needed.	I have made it clear in revised manuscript.
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
