

Editor's comment:

Punctuation flaws (double spacing. et al, instead of et al.,) persisted.

REFERENCES MUST NOT BE CITED IN THE CONCLUSION SECTION. BESIDES, THE SEEMING CONCLUSION IS TOO LENGTHY FOR A CONCLUSION.

THERE WAS NO INDICATION IN THE METHODOLOGY SECTION HOW THE DATA WERE ANALYSED STATISTICALLY TO OBTAIN THE RESULT BUT STANDARD DEVIATION VALUES WERE PROVIDED AS IN THE TABLES.

These noted shortcomings need to be addressed before the article could proceed for further publication processes.

Author's feedback:

Wrong punctuations have been corrected

Incomplete references have been corrected or replaced.

Methodology had been updated with method numbers and the data were analyzed using mean and standard deviation values.
