SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Re-editing and restructuring of some sentences required throughout the report to enhance clarity and the easy to read through. For example the word interviewer has been used incorrectly at many places where the correct should have been interviewee , and that on line 97 it should be "Majority of the interviewees were educated, as figure 7 shows that 166(83%) of respondents were educated.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	It is a very well structured valuable report of a study which established the most important causes of deforestation not only on the studied area, but in the rural areas of almost all developing countries, where growing populations don't have alternatives to the firewood and timber products they rely on entirely.
