PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
-The materia in section 2 should be Materials. -This reference Elâziğ (Kpunar et.al, Turkey) was found on page 7 of the revised version. If you are reporting, the author's name should come first with the year, remember also to use the numbering system and must be cited on the references. -Table 5 for the revised version is different from what it was. Even though, there is change, a brief discussion if not details should accompany a table. - Authors are invited to critically examine the reference pattern from journal author's guide and published papers for corrections. Your references are still inconsistent. Example of references are: 1. Akpootu DO, Iliyasu MI. A comparative study of some meteorological parameters for predicting global solar radiation in kano, Nigeria based on three variable correlations. <i>Advances in Physics Theories and Applications</i>, 2015; vol.49: 1 – 9. 2. Akpootu DO, Iliyasu MI, Mustapha W, Aruna S, Yusuf SO. The Influence of Meteorological Parameters on Atmospheric Visibility over Ikeja, Nigeria. <i>Archives of Current Research International</i>. 2017; 9(3): 1-12
