

SDI Review Form 1.6

Journal Name:	Asian Journal of Environment & Ecology
Manuscript Number:	Ms_AJEE_39135
Title of the Manuscript:	APPLICATION OF SWAT AND 3D ENVIRONMENT IN FLOOD DETECTION SENARIO OF TERENGGANU WATERSHED
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The methodology section is stating 'what can be done' and not what was done. The reader needs to know what the researcher did and not what the researcher can do, this should be corrected to reflect what was actually done. 'Result and Discussion' should be devoid of method of study. This section should contain only the results and the discussion of such result and not what was done to get the result. There is not conclusion in this study. What is presented as 'conclusion' is not conclusion. Conclusions should be drawn from the findings of the study.	
Minor REVISION comments	There is need to read through again and correct grammatical errors. Grammatical errors are actually many in the manuscript.	
Optional/General comments		

Reviewer Details:
