PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors must to better describe the field methods. How have they collected the data? What is the area covered by the survey?	
Minor REVISION comments	See in the main file of the manuscript: the title Page and the second page.	
Optional/General comments	I find that the 21 species described in this paper, are insufficiency if we considered a total of 503 genera and 14,000 species surveyed in Brazil.
