General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Enough explanation of the methods must be provided. Such as the study type, research design and justifications for the sampling design selected and most importantly, how the study's data was analysed.	Has been changed accordingly.
Minor REVISION comments	In the concluding section, the author must show who (implementation agencies/actors) are to implement the excellent suggestions being put forward. It is really important to make feasible the recommendations from the study.	Has been changed accordingly.
Optional/General comments	Its generally a good paper that highlights the significant roles ecotourism plays in significantly contributing to the culture, environment and economy of especially local communities. The results are extensively discussed but the methods is not properly written and need remediation.	Has been changed accordingly.

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	N/A as it was an academic research monograph
