

SDI Review Form 1.6

Journal Name:	Asian Journal of Geographical Research
Manuscript Number:	Ms_AJGR_40749
Title of the Manuscript:	EFFECTS OF CLIMATE VARIABILITY ON LIVELIHOOD ASSETS IN MARIGAT AND MOGOTIO SUB-COUNTY, BARINGO COUNTY, KENYA
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Line 10: change from <i>variability on</i> to <i>variability in</i> Abstract: organize coherently, that is present complete methodologies before highlighting the results Line 27: talking about forest system is speculative since this was not part of your study, Line 35: rephrase grammatically Line 35: It appears far-fetched to define “climate variability” as variability in time scale Line 37: replace quality with characteristic Introduction: why settle on the county? The introduction is quite general, not stating the rationale behind you selecting the study area, no GAP. Line 74” is the county in northern Kenya? Study area: add references/ sources from which the information was sourced Line 90: rephrase 85: talk of research design and not experimental design Add captions to your tables and figures Require major language edits	Corrections ALL done..... Track changes, accepted and inserted
Minor REVISION comments	Avoid repeating the results (in statement) if you are tabulating them, just mention key findings How did you determine that there was climate variability or is it just perceptions from the respondent? Did you carry out a trend analyses? I trust it will be fruitful to your editorial office to make its final decision.	Done.... Both perceptions from the respondents showed variation in climate.... and Trend Analysis was carried out using Secondary data collected from the Meteorological station. Yes. Thank you.
Optional/General comments
