	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	- Now 2018, is going on and author is tacking satellite image of 2010, there is no significance of so old data. - Author use only one season data so comparative study is not possible and we cannot study the changes. - In Maps legends are not visible, please improve it.	The present study aims to develop spatial databases and map only land use and land cover for Mehao WLS as there is inadequate knowledge and further this data can be used to perform change detection, ecological modelling in future. The present study does not focus on the land use land cover changes. Revised maps inserted wherein legends are now clearly visible.
