General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	These are highlighted with comments in the body of the article. The formula given for cross-sectional area in line number 188 need to be corrected. XY mentioned in line number 191 is not shown in the formula above. Since further calculations and analysis is based on this formula a recasting of the analysis and interpretation are required. All the measured / calculated data should be given in tabular form.	
Minor REVISION comments	There are certain conclusions which are not related to the study and should be deleted from the "Conclusion" section. It is highlighted in the body of the text with comment.	
Optional/General comments	There is scope for improvement of the article which are necessary as indicated in the body of the article.
