

SDI Review Form 1.6

Journal Name:	Asian Journal of Geographical Research
Manuscript Number:	Ms_AJGR_40835
Title of the Manuscript:	The impact of some physico-chemical variables on hydrogen sulphide levels in Lake Burullus sediments, Egypt
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Line No. 85 spelling mistake Conc. H₂SO₄</p> <p>Line No. 87 should be "in this manner is" not "in this manner in"</p> <p>Line No. 97 can be omitted (formula of correlation coefficient)</p> <p>Line no. 108, spelling of neighbourhood</p> <p>Please substantiate the statement Line no. 161 to 163 and with the table having values of DO having high end of DO for sl. NO. 5 and low to sl. No. 9</p>	
Minor REVISION comments	<p>Please check average depth of 100cm,</p> <p>Reconsider for better presentation line No. 152 to 155</p> <p>Recheck the values of DO for sample No. 5</p> <p>Statistical analysis for all the parameters could have been provided in the form of a table</p> <p>Since the correlation maximum value is 1</p> <p>The value "r" is ranging between +0.32 to +0.74 except pH = -0.24</p> <p>The statements are contradictory</p>	
Optional/General comments	Few references were not indicated in the text but there in the reference section.
