PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	See the attached file.	<p>We would like the reviewer for critically reading our manuscript. We have corrected the text accordingly.</p> <p>The figures were exclusively designed by one of the authors (GTR), and not taken from copyrighted material.</p> <p>However, we have left in the introduction the analogy with a painting of JHeronimus Bosch because we think, as affiliated to a Liberal Arts and Sciences university college, it adds some essential and interesting background to our paper. We also think the readers might be interested in this reflection. In addition to this, the title of the review is appropriate. In the past, we have used references to JHeronimus Bosch' paintings in several of our papers ("Cutting the stone..." in <i>Cureus</i> (2017) 9, e1023; "Visions of the hereafter..." in <i>Int. J. Immunol. Immunother.</i> (2017) 4, 026; "Allegory of gluttony and lust..." in <i>Sci. J. Food Sci. Nutr.</i> (2017) 3, 012-017; "Triptych of the hermit saints..." in <i>Risk Manag. Healthc. Policy</i> (2018) 11, 55–65).</p>
