PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The article is appropriate to the journal content but it needs some revisions in grammatical, punctuation, capitalization, the significance of the article, method of collecting and analysing the text, and the plagiarism indicated in some paragraphs	Most of the corrections have been effected, and the suggestions well taken. However, the title that is in question form is an acceptable style everywhere. Some book titles appear in question forms. A title could be a phrase, clause, or question. So, if you do not mind, I prefer to keep the title as it is. Some of the highlighted sentences are actually quotations, and are properly cited.
<u>Minor</u> REVISION comments	Correcting the references in the article and also in the references part	The issues have been taken care of.
<u>Optional/General</u> comments	Correcting the suggestions	The suggestions are well taken.
