SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The citation provided go as long as 1932, 1970's, 90's. It is advisable that current references need to be used for this study, possibly, not later than 2000 is preferable for most of the publications.	Thanks for your kind observation. However, it must be stated that the protocols used in this research were instituted at the said period, with few revisions later than 2000.
<u>Minor</u> REVISION comments	This is very good work done. Just a small error on the use of p value. It is usually calculated as a small p_value and not capital letters. Check highlighted content in line 127, 140 and others shown in the result sections.	Noted and corrected.
<u>Optional/General</u> comments	Read again through the work and ensure that all the mistakes are not present.	Done
