PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	I wrote and marked on the manuscript.	Line 37, 113, 168, 206, 189 was corrected, line 68 was clarified by new sentence. In line 17, we said that Anthrax is found all over the world and mostly found in tropical and sub-tropical countries. You said "The anthrax commonly is reported (95%–99%) in all world by CDC". the original sentence is "The most commonly reported form (95%–99%) of anthrax in humans worldwide is cutaneous anthrax" Link . SO I think our sentence was appropriate in that context. Although If you have further question, feel free to ask.
Optional/General comments
