SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1] Many grammatical errors eg. sentence 32,33,98,102,105. These should be checked by someone fluent in English 2] References incomplete eg. 20 which has been quoted as the latest reference. Please follow the Vancouver style. 3] References cited for some findings are very old dating back to 1980's 4] Why has the author selected only tobacco smoking and not chewable products is not explained. 5] Were the controls screened for other addictions not mentioned in the paper.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	It is my suggestion that in future the author might branch out in this field by assessing the levels of pro-thrombotic factors of anti fibrinolytic factors like TAFI[ProCPB] and the effect of smoking etc on these parameters to delineate the pathogenesis.
