| Journal Name:            | <a href="#">Asian Journal of Medicine and Health</a>                                                                                      |
| Manuscript Number:       | Ms_AJMAH_37029                                                                                                                            |
| Title of the Manuscript: | The Relationship between Upper Extremity Motor Function and Oral Hygiene among Stroke Survivors: Study Protocol for a Mixed-Method Design |
| Type of the Article      | Study Protocol                                                                                                                            |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

|                                            | Reviewer's comment                                                                                                                                                                                                                  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | <p>This study is interesting.</p> <p>I suggest:<br/>Review the specific objectives; universe and sample size (when);<br/>references update (and format review)</p> <p>Ethical issue: Yes. Research that involve human subjects.</p> |                                                                                                                                                                               |
| <b><u>Minor</u></b> REVISION comments      |                                                                                                                                                                                                                                     |                                                                                                                                                                               |
| <b><u>Optional/General</u></b> comments    |                                                                                                                                                                                                                                     |                                                                                                                                                                               |
