PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript demonstrates incorrect information about odontogenic keratocyst. This cited references are archaic and date back to 6 decades ago. However, the recent edition of the 2017's WHO edition has repositioned kCOT back to odontogenic cysts except for syndromic cases (which demonstrate molecular mutation). Moreover, there are neither photomicrographs for the histologic diagnosis nor underpinnings to the surgical treatment modalities. The author(s) of this submission is/are not well-versed in the discussed topic. The information provided is out-dated.	Ok sir... i wil make the correction .
Minor REVISION comments	Several linguistic infelicities are evident throughout the manuscript. An extensive language editing is required.	Ok sir
Optional/General comments	None
