General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	- Review the keywords - Double/Triple references cited in the text can be placed in one pair of square brackets e.g. [2, 3] - Make the sub-headings more distinctive. E.g. the use of upper cases and/or boldness. - Table 1 is quite extensive. Change the font sizes, spacing and possible arrangement to preferably fit into one page. - Age groups like 10-19 20-29 50-59 which included male and female patients all had higher numbers of female patients. Any reasons why? - A few grammatical errors have to be corrected: -Line 17-18 and 108: road traffic accident. (RTA more widely used). RTI is mostly read as respiratory tract infections. -Line 25, 86 and 121: on or upon discharge or at the time of discharge. -Line 38-39: TCSCI accounts for 2-3% of all trauma injuries and -Line 40: types of injuries resulting..... -Line 41: A high index of suspicion, early -Line 60: ...segments thus rendering it more vulnerable..... -Line 103: with a mean of 35.15.....years. -Line 214: with regards to SCI..... -Line 230: one of the cornerstone principles of	Done please Corrections effected Done please Font sizes and spacing of Table 1 reduced to fit into one page Error noted and appropriate Graph revised. All corrections effected please
