

SDI Review Form 1.6

Journal Name:	Asian Journal of Medical Principles and Clinical Practice
Manuscript Number:	Ms_AJMPCP_38091
Title of the Manuscript:	Microalbuminuria As A Marker Of Cardiovascular Risks In Egyptian Hypertensive Patients
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link: (<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	It would be interesting to compare the presence of microalbuminuria in patients with and without diabetes mellitus respectively, because as we know patients with DM are more likely to develop MAU. I suggest it for future studies. How did you assess LVH? Based on ECG or due to echocardiographic assessment of left ventricular mass index. Just mention it in the text.	
Optional/General comments
