General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>I have highlighted the corrections necessary. There are a lot of grammatical errors and I would suggest this manuscript should be screened by someone whose first language is English.</p> <p>References need to be corrected.</p> <p>The cause for septal abscess being rhinosinusitis is majority of cases is an interesting finding but needs much more clarity in terms of previous symptoms up to presentation as an abscess.</p>	
Minor REVISION comments		
Optional/General comments
