

SDI Review Form 1.6

Journal Name:	Asian Journal of Biology
Manuscript Number:	Ms_AJOB_30518
Title of the Manuscript:	BACTERIOLOGICAL AND PHYSICO-CHEMICAL ANALYSIS OF SURFACE WATER OBTAINED FROM UKE RIVER IN KARU, NASARAWA STATE.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. Revise conclusion in abstract to include physicochemical parameters more properly. 2. Study area and sampling points are supposed to be shown in map picture. 3. Include methodology for alkalinity as well. 4. Re-check and update the WHO standards 5. Include the discussion of physicochemical parameters which is missing 6. Revise conclusions at the end to make more factual based on the present research findings. Avoid making of generalized statements, irrelevant to present research findings.	1. The title of the manuscript has been revised to Bacteriological Analysis Of Surface Water Obtained From Uke River In Karu, Nasarawa State, Nigeria. 2. Study area has shown in map picture.
Minor REVISION comments	1. Mention about the criteria of selecting choice of sampling points and timing. 2. Space must be given between unit and values. 3. Revise references to bring uniformity and in accordance to Journal style	1. The criterion for selecting sampling points has been added. 2. Space has been given between unit and values. 3. References have been revised.
Optional/General comments	No	

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
