SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	In general, the manuscript is good written in good english although some minor mistakes were found and need correction. These are below: Introduction Page 2 Parag 1.L7: write infections instead of infections Parag 2 L2 write conditions instead of condition Parag. 3 L4: write damages instead of damage in all places in the text Page 3 Parag.2 L1-2: the sentence need revision because it is very diffict to undestand what is written Materials and Methods Parg 1 L2: replace fruits by plant Page 4 Table: write bw instead of BW in all places	Effectted What is written in the text is conditions as requested This has been changed in all the places it appeared Sentence has been rephrased Done This has been effected

SDI Review Form 1.6

	Page 7 Discussion, Good reported, but there is no discussion about the effect of SST used at different doses on caffeine	Only a single dose of caffeine was used being 200mg/kg bw. What varied was the SST. I have highlighted discussion on them
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
