**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<p><b>Comments to Editor:</b> The manuscript is well written however there are some grammatical mistakes which should be corrected in the revised manuscript. In my opinion, the paper may be accepted for publication after a minor revision.</p> <p><b>Comments to Author:</b> The authors have studied the antimicrobial and anti-inflammatory effects of marine red algae isolated from Quseir, Red Sea, Egypt. It is a good study. There are some grammatical mistakes throughout the manuscript which needs to be corrected in the revised version.</p> <p>The introduction section needs some more explanation. I would like to suggest the following references that can be added in the introduction section of the manuscript.</p> <p>Ribeiro et. al., Marine Algae as Bioproducts for the Prospection of New Drugs, EC Pharmacology and Toxicology 3(3), 64-65 (2017).</p> <p>Ilyas et. al., Frequency, Susceptibility and Co-Existence of MBL, ESBL &amp; AmpC Positive Pseudomonas aeruginosa in Tertiary Care Hospitals of Peshawar, KPK, Pakistan, Journal of Pure and Applied Microbiology, 9(2), 981-988 (2015).</p> <p>Irshad et. al., Isolation, characterization and antimicrobial activity of halophilic bacteria in foreshore soils. African Journal of Microbiology Research, 7(3), 164-173 (2013).</p>	Done

**SDI Review Form 1.6**

	The authors have combined the results & discussion section however, they have to discuss results in accordance with current literature available in this field.	
<b><u>Optional/General</u></b> comments
