

SDI FINAL EVALUATION FORM 1.1**PART 1:**

Journal Name:	Asian Journal of Biology
Manuscript Number:	Ms_AJOB_34533
Title of the Manuscript:	Assesment of phenology and morphological diversity of 3 species of Asteraceae: Anacyclus clavatus, Chamaemelum fuscatum and Leucanthemum parthenium
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
English have been improved to some extent. The experimental design is not mentioned again so it seems there was no field design used for the study. Few minor corrections have been mentioned in the attached text file itself.	I added the term "Experimental design" to "2.1. Plant material". For the experimental design used, The 3 species were grown on an experimental plot at the Faculty of Sciences of Tunis, Tunisia under uncontrolled conditions. I have corrected the few minor corrections mentioned in the attached text file.
