PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The paper needs revision</p> <p>a) Impact of railway in flora and fauna? b) Impact of railway in three primate's genders? c) If flora and fauna that railway impact is in IUCN list?</p> <p>What they want. Please clarify your idea and then rewrite your manuscript.</p>	<p>I have fixed it</p> <p>The construction of the railway line does not have a significant impact on the flora and fauna around the project footprint. There are 3 primate species that utilize the habitat around the project site of long-tailed monkeys (<i>Macaca fascicularis</i>), Lampung monkeys (<i>Macaca namastrina</i>), and langur (<i>Trachypithecus auratus</i>) And includes endemic fauna protected by the Government of Indonesia and the International Union for Conservation of Nature (IUNC). But the location of the project is just an area for feeding.</p>
