

SDI Review Form 1.6

Journal Name:	Asian Journal of Biology
Manuscript Number:	Ms_AJOB_37961
Title of the Manuscript:	Phytochemical analysis, antioxidant and antibacterial activities of two traditionally used Indian Medicinal Plants
Type of the Article	Short Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Include authority for plant names Include recent literature in introduction and discussion Mention the herbarium voucher number Required more proper discussion with current results Provide recent reference for photochemical extraction technique Why you have not taken purified compounds for comparative study What are new reports when compare with earlier study	Authority, herbarium voucher number and recent literature in introduction and discussion were included. The reference for photochemical extraction technique is included. Isolation and characterization of bioactive compounds from the plant sources is underway in our laboratory.
Minor REVISION comments	On which basis you selected this study Did you checked for toxicity Check for spelling mistakes	Rationale for selection of plants is included in the introduction section. Toxicity studies have to be conducted in our future studies.
Optional/General comments	Scientific names should be italicize Check the references order and follow the journal format	Scientific names italicized and the references order modified to journal format in the revised manuscript.
