

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Biology
Manuscript Number:	Ms_AJOB_30739
Title of the Manuscript:	SUSTAINABLE MANAGEMENT OF ROOT KNOT NEMATODE MELOIDOGYNE INCOGNITA THROUGH ORGANIC AMENDMENT ON SOLANUM LYCOPERSICUM L.
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The author made most of the corrections. There are still some places that need to work on. 1. "Root knot nematode" or "<i>Meloidogyne incognita</i>" should be consistent throughout the paper. I suggest to use <i>Meloidogyne incognita</i> instead of root knot nematode in the paper. Please change root knot nematode to <i>Meloidogyne incognita</i> or <i>M. incognita</i>. 2. Please change all the "@" in the paper to 50g of ..., or 10g of ..., ... Do not use @! 3. What is your experimental design? How many replications? Did you repeat the experiment? I didn't see it in the revised manuscript. 4. References are not in the right format as required. Please change your format for each references including ".", space between letters, abbreviations for authors' names...Please check the author's guideline for the right format. 5. The font of your manuscript is not the same size. Please change it all to the same size 12. 6. Reference in your manuscript should be cited as numbers not the author and year.
