Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. In table 4, why was N 6 per group? You should show the results from N = 12/group. N of 6 is quite small. 2. As well, Figure 1 should be calculated from 12 rats. N= 6 is quite small. 3. You should show the results of 12 rats in Figure 2 and 3. If you worked on 12 rats of each group but showed the results of only 6 rats, how did you pick which ones to be presented? 	
Minor REVISION comments		
Optional/General comments
