| <b>Compulsory</b> REVISION comments |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                           |
| <b>Minor</b> REVISION comments      | <p>The reviewer has read carefully the paper. The paper presents very interesting study about Antibacterial and Antifungal Potentialities of Earthworm Eudrilus eugeniae Paste and Coelomic Fluid. The text and layout is clear and logical. All corresponding figures and tables are informative and fit well to this chapter. Materials and methods chapter are well written are appropriate.</p> <p>Generally it is well written, but I propose the authors to expand the article, by adding some most important results from the world.</p> <p><b>Comments for the authors:</b><br/>The reviewer recommends publication, but suggests minor revisions in order to improve the document.</p> <p><b>Detailed comments:</b><br/>The results and discussion are with a little range. Expand the discussion, more debate about the topic.<br/>It is necessary to add more references to the article. Please correct the references according to journal (5,7,8,9,10 and 11) and add a more references about topic, please provide revision in text.<br/>This reference "Balamurugan et al., 2007" is not the cited in references.<br/>The figures and tables are not included in the text, (add 6 Figures and 2 Tables) please correct.</p> <p>After these revisions I hope it will be a good scientific paper!</p> | <p>Sir thank you for the valuable information, we agree with all the comments</p> <p>We change the discussion part add additional points also.</p> <p>Reference part was also corrected. Tables and figures are included in the text.</p> |
| <b>Optional/General</b> comments    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                           |
