

Editor's comment:

Authors were revised the chapter entitled "2018/AJOB/39936 -A study of C677T polymorphism of Methylenetetrahydrofolate reductase (MTHFR) gene and it's susceptibility in Coronary artery disease" as per suggestion given by reviewers. The manuscript has been revised according to the comments and suggestion and appears of better quality. However, some minor revisions should still be conducted. I still highlight some problems in the text. See comments inserted in the manuscript.

Author's feedback:

The comments and suggestions of the manuscript are inserted:

Comment 1: Full text written for CAD.
Comment 2: The sentence is removed from the manuscript.
Comment 3: Reference inserted to check literature in detail.
Comment 4: Reference inserted
