SDI Review Form 1.6

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | | |
| Minor REVISION comments | I suggest only few changes in manuscript: | |
| | - Line 18: "indicate that the" | - Agree with reviewer: replace this phrase: "indicate that the" by "show closest" to correct grammar and make clearer. |
| | - Change: breed to strain in all document, because breed word principally use is: (of animals) mate and then produce offspring | - Disagree with reviewer: "breed" word was used as nouns in this document, and it means "a stock of animals or plants within a species having a distinctive appearance and typically having been developed by deliberate selection", also. But, we have corrected in plural and singular form at some places. |
| | - Discard article "the" in some places | - Agree with reviewer and revised. |
| | - Line 85: "the 4 geographic regions as" | - Agree with reviewer and revised: replace this phrase: ""the 4 geographic regions as"" by "four geographic regions" |
| | - Line 95: "2.4. Phylogenetic analysis" | |
| | - Resolution of letter in Figure 2, 3 | - They have been made to become higher resolution. |
| | - Line 185: "From the phylogenetic" | |
| | - Line 191: " In conclusion, our results" | - Agree with reviewer: Change to "Our results" |
| | - Line 196: Discard "the" | - Agree with reviewer: Article "the" that has been discarded. |
