

SDI Review Form 1.6

Journal Name:	Asian Journal of Biology
Manuscript Number:	Ms_AJOB_39768
Title of the Manuscript:	Physico-chemical Parameters of Fallowing Farmland Soils as it Affects Geohelminthes in Isiodu, Emohua Local Government Area, Rivers State, Nigeria
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Authors must provide another background statement that should describe the scope of the study and not the main objective. The source of the laboratory procedure (Centrifugal flotation method) should be cited. In cases where parasitic stages have been identified at the genus level, authors should write <i>Ascaris</i> spp. instead of <i>Ascaris lumbricoides</i> and <i>Trichuris</i> spp. instead of <i>Trichuris trichiura</i>. Indicate funding source if any.	
Minor REVISION comments	In the sample collection section, it is important to specify the amount of soil collected for each soil sample.	
Optional/General comments	The problem has been well handled in the manuscript. It is interesting, well written in a general way and will also be useful to the scientific community.	

Reviewer Details:

Name:	Vanessa Rosine Nkouayep
Department, University & Country	Department of Animal Biology, University of Dschang, Cameroon
