

SDI Review Form 1.6

Journal Name:	Asian Journal of Biology
Manuscript Number:	Ms_AJOB_39840
Title of the Manuscript:	An integrating approach of bacteriophage and iron antagonizing molecule for eradication of biofilm of E. coli isolated from clinical samples of Sylhet city, Bangladesh
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	It is a very important work considering the importance of the impact of resistant bacteria on human health The authors should make minor modifications: The Millipore 0.45 µm filter does not sterilize, so authors should change the wording of the sentence in page 3 line 92-93. In following paragraph 100 µl of E. coli inoculum (109 CFU/ml) and 100 µl of TY broth media that was supplemented with 10µM, 100 µM and 1000µM separately, were used to inoculate wells of 96-well microtiter plate ...it corresponds to add FeCl₃??	
Optional/General comments
