

SDI Review Form 1.6

| | |
|--------------------------|--|
| Journal Name: | Asian Journal of Biology |
| Manuscript Number: | Ms_AJOB_43268 |
| Title of the Manuscript: | Unacknowledged Potential Factors in Catastrophic Bee and Insect Die-off Arising from Coal Fly Ash Geoengineering |
| Type of the Article | Original Research Article |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | The idea of the manuscript is good however, the work done, and the data not support this hypothesis. I felt lost after I read this assembly of data. Methods are weak and to be clarified and brought much details about the laboratory work. No statistical analyses. Discussion can be replaced by literature review of the topic and there is no discussion at all. A lot of information needs to be confirmed by good references. | |
| Minor REVISION comments | | |
| Optional/General comments | | |
