

## SDI Review Form 1.6

|                          |                                                                                                                                 |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Journal Name:            | <a href="#">Asian Journal of Chemical Sciences</a>                                                                              |
| Manuscript Number:       | Ms_AJOCS_31789                                                                                                                  |
| Title of the Manuscript: | A study of Polarographic Characteristics, Kinetic parameter and Stability Constant of [Zn(II)-antibiotics-vitamin-BX] complexes |
| Type of the Article      | original research paper                                                                                                         |

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

### **PART 1: Review Comments**

|                                     | Reviewer's comment                                                                                                                                                                          | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | The structure of the manuscript it is misleading, it makes you think that the main topic is the formation of the complexes between the Zn(II) and the antibiotics. Instead of the kinetics. | Minor change has been made in the title.                                                                                                                                      |
| <b>Minor</b> REVISION comments      | The grammar and formatting of the manuscript it is not well done, the author should correct many typos.                                                                                     | Corrected                                                                                                                                                                     |
| <b>Optional/General</b> comments    |                                                                                                                                                                                             |                                                                                                                                                                               |
