

SDI Review Form 1.6

Journal Name:	Asian Journal of Chemical Sciences
Manuscript Number:	Ms_AJOCS_34794
Title of the Manuscript:	Phytochemical Screening and Antibacterial Activity of Spondias mombin Leaves.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	This manuscript brings new information regarding to antimicrobiological activity of <i>Spondias mombin</i> leaves. But the paper could require some corrections such as: - It must be improved English language; there are some misspellings in the text. - Punctuation rules are not respected. - The chemical characterization of the extracts is not correctly made; no suitable quantitative determination methods are used. - Both extracts must be characterized in order to highlight the importance of the chemical composition difference with the different intensity of the antimicrobial effect.	The manuscript has been revised. The methods used in quantitative determination was recommended by our supervisor and necessary precautions were taken to minimize interferences.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
